Delta Variant

You may be aware that there has been a lot of information in the news regarding the Delta Variant of Covid 19 & the associated symptoms.

Officially, the main symptoms of coronavirus (COVID-19) remain as:

- **A high temperature** – this means you feel hot to touch on your chest or back (you do not need to measure your temperature)
- **A new, continuous cough** – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)
- **A loss or change to your sense of smell or taste** – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal. Please continue to work with us to keep our school community as safe as possible for all pupils and staff by staying at home and accessing a PCR test if any of the above symptoms occur and we ask that you are cautious and if you have any doubts about symptoms, a PCR test is accessed, and wait for results before returning to school.

Thank you
