# OUR DEVELOPMENT AREAS

As a Senior Leadership Team, Governing Body, and staff team we consistently strive to improve standards within school. Therefore we wish to share with you our key priorities for this academic year.

We will survey families frequently, to ensure we can support families and pupils to the best of our ability.

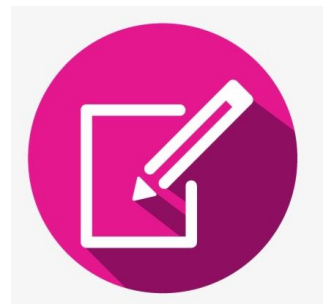

We will respond to, and complete our Balanced System Communication audit, to ensure all pupils receive outstanding communication provision in school.

We will review our enterprise offer, in line with our facilities and ensure we make maximum use of the premises for the pupils.

We will work with the Local Authority to ensure our premises is suitable for our students, responding to our infrastructure survey. Allowing for adequate facilities to store physio equipment and meet the pupils needs.

We will work with the Essex Health & Safety Team on 'My Safety' reporting system for all accidents and incidents that occur within the school community.

We will develop a bespoke in house certification scheme for our Pier & Beach Strand pupils to complete at KS4.

More information about our development can be found on our school website.
