

SHOREFIELDS SCHOOL – PE and Sports Premium Statement

This funding has been provided by the government to improve the quality and breadth of PE and Sport provision

For the 2023/2024 academic year we will receive an estimated £16,748 and propose to :

- Pay towards funding for a Sports Coordinator
- Swimming lessons at local swimming pool with an instructor, for range of pupils
- Weekly sessions on two courts at the Leisure Centre for college pupils
- Onsite swimming lessons for our youngest pupils to develop swim confidence.
- Training in rebound therapy.
- Bike helmets and new bikes
- Bike repairs and servicing
- Purchase Sports equipment

How will we measure the impact of this expenditure?

We will use formative assessment of the pupils' development in the areas of fine and gross motor skills, personal and social development, health and well-being. We aim for all pupils to have made some progress in these areas and this will be enhanced by this provision. We assess progress using Tapestry to record and track the development areas, and ASDAN.

Our aim is to impact student's well-being and health so that they are confident and keen participants in a range of physical activities, not only during the time they are in school, but also as they transition to adulthood. We aim to offer them as many experiences as possible during their time at Shorefields, so that sporting and physical activities become part of their daily lives, which will also increase their health, social skills and engagement with their local community.

For the 2022/2023 academic year we received £ 16,684 and allocated the grant as follows:

- Pay towards funding for a Sports Coordinator
- Swimming lessons at local swimming pool with an instructor, for range of pupils
- Weekly sessions on two courts at the Leisure Centre for college pupils
- Outdoor basketball posts/nets equipment for student use. This include removing previous equipment, preparing the area and installing surfaces and the equipment
- Trampoline repairs and possible replacement
- Diddi Dance sessions with a number of classes
- Bike helmets and new bikes
- Bike shelter
- Bike repairs and servicing
- Swing sets

What was the impact of this expenditure?

Our new Sport Coordinator has supported teachers with ideas and equipment, we have purchased new PE equipment to enable new adaptive PE lessons to take place.

We have use formative assessment of the pupils' development in the areas of fine and gross motor skills, personal and social development, health and well-being. All pupils have made progress in these areas and this is partly due to this provision.

A number or children are now more confident in using the bikes. Our wheelchair users now have the opportunity to participate in cycling activities on the school playground.

All pupils have had access to class trampolines to meet their physical and sensory needs.

All pupils engaged in a range of physical & sporting activities to better their health and well-being.

Pupils from a range of classes have had access to swimming lessons off site or pupils with complex needs have benefited from hydrotherapy sessions.
