Billy Footwear Adaptive Shoes For Special Needs

We have been made aware of a superb brand of shoes which some parents may be interested to know more about. Billy Footwear specialise in adaptive shoes that are both functional and inclusive, making them great options for kids & adults with special needs. Their range of shoes for special needs children feature fliptop technology, which makes them quick and easy to take off making them ideal for kids with special needs or mobility problems. With both fashion with function, Billy Footwear incorporates zippers that go along the side of the shoes and around the toe, allowing the upper of each shoe to open and fold over completely, where the wearer can place his or her foot onto the shoe foot bed unobstructed.
