SUBJECT ACCESS REQUEST POLICY

Version History

V26.1	March 2026	Updated resource: Included statement regarding process for managing SARs in school closure periods.
V25.1	January 2025	Updated resource: - Amended phrasing of how an individual can make a SAR, clarifying this can be a written or verbal request, but that a form has been provided to support individuals with making their request. - Removed specific job role of DPO as the individual who will respond to a SAR to allow schools/trusts to personalise this, to show which role within school will co-ordinate the SAR response (as in practice there will be a number of people involved with preparing the SAR response). - Amended phrasing of how a SAR response will be provided to explain that it will generally be provided in the format that the request was submitted by the individual (e.g. a SAR received by email will be responded to electronically and a hard copy letter will be responded to with a paper response). - Amended phrasing linked to extensions to require the school/trust to contact the individual at the earliest opportunity to explain why an extension is being applied, but that this should be at least one month following receipt of the request. - Amended phrasing linked to checking for ID to show that this may be requested, rather than it will need to be provided for every request. If the school/trust are certain that the individual making the request is who they say they are and has parental responsibility then an ID check is not likely to be required. - Added in examples of other exemptions that may be applied (and that are most commonly applied within SARs): - Third party data, for example information about other pupils or adults that are not the data subject or individual making the request - Data that could lead to a risk of harm to the data subject or individual making the request - Information that is not the personal data of the data subject or individual making the request - Management information - Records relating to a live investigation (e.g. an ongoing complaint, behaviour, grievance, disciplinary matter etc) - Updated the link that directs to the ICO detailed guidance on exemptions.

Subject Access Request Policy V26.1

Any individual, person with parental responsibility or young person with sufficient capacity has the right to ask what data the school holds about them and can make a Subject Access Request (SAR).

A SAR can be made verbally or in writing. A 'Subject Access Request' form (Appendix A) is included within this policy to support individuals with making their request.

The school has been designated as the individual who will coordinate the response to a SAR.

The school is required to provide the individual with the data it holds on them within one calendar month. The school can extend the time to respond by a further two months if the request is complex or they have received a number of requests from the individual. The individual must be contacted at the earliest opportunity, but at least within one month of the school receiving their request and explain why the extension is necessary.

The response to the SAR will generally be provided in the same format that the request was submitted by the individual.

It is permissible to ask the individual who has made the request to be more specific about the information that they require in order to ensure that the information they are provided with meets their requirements rather than providing lots of information that may not be relevant to their query.

Evidence of the identity of the person making the request and their relationship to the pupil may be required prior to any disclosure of information. This should be recorded on the SAR Log (Appendix B).

Exemptions to a SAR may include:

- Third party data, for example information about other pupils or adults that are not the data subject or individual making the request
- Data that could lead to a risk of harm to the data subject or individual making the request
- Information that is not the personal data of the data subject or individual making the request
- Management information
- Records relating to a live investigation (e.g. an ongoing complaint, behaviour, grievance, disciplinary matter etc)
- Education, Health, Social Work records
- Examination marks and scripts
- Safeguarding records
- Special educational needs records
- Parental records and reports
- Legal advice and proceedings
- Adoption and Court records and/or reports
- Regulatory activity and official requests e.g. DfE statistical information
- National security, Crime and taxation
- Journalism, literature and art
- Research history, and statistics
- Confidential references
